

Passive IP over Coax transmission solution

Product Code: IPCXP1

- Long range up to 100 meters at 10mbps speed
- Coax connection female BNC plug
- Network connection RJ45
- No power required

This device can be used to transmit IP camera images over coax, these devices provide an economical solution as legacy cabling can be utilized when upgrading to IP camera technology.

Note: Network switch must be set to 10mbps half duplex
